London, UK (willing to relocate) | +44 7586 163929 | Gowda.dhanush.uk@gmail.com | [linkedin.com/in/dhanushcyber](https://www.linkedin.com/in/dhanushcyber)

Professional Summary

Cyber security graduate with a Distinction MSc from Royal Holloway, an NCSC Centre of Excellence, and a First Class BEng. Combines genuine framework knowledge (ISO 27001, NIST CSF, GDPR) with real-world experience leading operations in a family business and supervising a team in a fast-paced London venue. Strong analytical and written communication skills, currently building hands-on technical and governance skills, and seeking to begin a career in cyber security, GRC, or technology risk.

Education

MSc Cyber Security Project Management Sep 2024 – Sep 2025
Royal Holloway, University of London. Pass with Distinction (NCSC Centre of Excellence)

- Strong results in Enterprise Cyber Security, Project and Programme Management, and Information Risk.
- Dissertation (Distinction): a forensic readiness framework for AI-enabled cybercrime, drawing on 165 sources and 5 expert interviews, mapped against GDPR, the EU AI Act, and NIST AI RMF.

BEng Computer Science and Engineering Aug 2020 – Aug 2024
ATME College of Engineering, Mysuru, India. First Class

Experience

Cybersecurity and Smart Systems Intern, Bosch Sep 2023 (1 month)
Bengaluru, India

- Supported vulnerability management and gained exposure to security and risk processes in an industrial environment.
- Contributed to ISO-aligned reporting and documentation.

Operations Lead, Sri Sai Krishna Enterprises (family textile business) 2020 – 2024
India (alongside undergraduate studies)

- Stepped in to run day-to-day operations of the family garment business during a period of family need.
- Sourced and negotiated with buyers, including international clients, and ensured orders were produced and dispatched on time.
- During COVID-19, when garment orders fell, secured new orders for PPE kits, helping keep the business running through the downturn.
- Managed staff and payroll and introduced practical improvements to keep production on schedule.

Senior Bartender and Bar Supervisor, Spice of Life Nov 2024 – May 2026
Soho, London

- Supervised bar service in a high-volume central London venue, overseeing staff and maintaining standards under pressure.
- Handled cash and till reconciliation accurately, and ensured compliance with licensing and age-verification rules.
- Built strong working relationships with colleagues and customers in a fast-paced, customer-facing environment.

Technical and Research Projects

Trade Empire, Backend and Platform Development (early-stage startup) 2026 – present

- Building and deploying a web platform from prototype to production, designing user authentication architecture (users, organisations, memberships) and refactoring the API into a modular structure.
- Configured production deployment on a VPS, including Nginx reverse proxy and HTTPS, applying secure-by-default practices.

MSc Dissertation, Forensic Challenges in AI-Powered Cybercrime 2025

- Authored an 89-page mixed-method study, demonstrating clear technical writing and evidence-based judgement.

Drug Recommendation System Based on Sentiment Analysis (Machine Learning) 2024 (95/100)

- Built a Python data pipeline (TF-IDF, Word2Vec, SMOTE) achieving 93% accuracy (published, see below).

Publications

- D. Gowda G P, *Drug Recommendation System Based on Sentiment Analysis of Drug Reviews Using Machine Learning*, International Journal of Creative Research Thoughts (IJCRT), Vol. 12, Issue 5, May 2024. ISSN 2320-2882. Peer-reviewed, UGC-approved.

Volunteering and Community Engagement

AICTE Activity Programme (400 hours), ATME College

2023 – 2024

- Took the initiative to teach computer skills to government school children, and worked in a team on community projects including water-management awareness, food distribution, and digital-payments literacy.

Ongoing Projects

- **ISO 31000 Risk Management:** studying to deepen practical risk-management knowledge.
- **Google Cloud Cybersecurity Certificate:** building technical understanding of cloud security.

Skills and Eligibility

- **Governance and Risk:** ISO 27001, NIST CSF, ISO 31000, GDPR, risk assessment, audit and documentation (academic).
- **Technical (lab and project):** Python, SQL, Linux, IBM QRadar, AWS Security Hub, VMware, VirtualBox, Kali Linux; backend deployment (Nginx, HTTPS, VPS).
- **Strengths:** stakeholder negotiation, team supervision, structured written communication, analytical problem solving.
- **Certification and Eligibility:** Certified Scrum Master (CSM); Full UK Right to Work (Graduate Route); able to pass BPSS and DBS checks.
